---

Hi Esther,

A dear friend of mine had that name! She died of cancer and I believe was in part to glyphosate contamination.

I hope you do not accept any bullying from Monsanto and their lobbyists to try to make it okay to allow RoundUp or glyphosate of any amount in our Foods. Over 300 lawsuits now against Monsanto for covering up the cancer link.

Please do right by our future generation and the current and do not allow Monsanto to get their way. Please make sure it's on the Prop 65 label as ZERO as safe.

Thanks.

Brittany Ruiz
